

FY22 Resiliency Hubs Award Recipients

<u>Awardee</u>	<u>County</u>	<u>Award Amount</u>
----------------	---------------	---------------------

Civic Works	Baltimore City	\$300,000
--------------------	-----------------------	------------------

Civic Works, a nonprofit that “strengthens Baltimore’s communities through education, skills development, and community service,” will receive \$300,000 to install a 100 kW roof mounted solar array with a 60 kW/300 kWh battery and microgrid control system at their building in the Belair Edison district of East Baltimore at 3501 Brehms Lane, Baltimore, MD. The building serves as a Civic Works training facility. It is fortunately situated to help the local community if the Herring Run river overflows into the neighborhood. When operational, the resiliency hub is expected to be open from 7 a.m. – 2 p.m. and then again from 4 p.m. – 11 p.m. when the grid is down.

Hamilton Manor Apartments	Prince George’s County	\$453,600
----------------------------------	-------------------------------	------------------

Hamilton Manor Apartments, an affordable housing complex at 3326 Lancer Drive Hyattsville, MD will receive \$453,600 to support the installation of fourteen (14) rooftop solar arrays, totaling 151.2 kW, with four batteries totaling 265 kWh. The resiliency hubs will be located in the basements of four of the 17 tenant buildings in the complex. There are 245 units in this complex, providing a population of about 500 residents. When operational, the resiliency hub expects to be open 24 hours a day while the grid is down.
